School Newsletter: Friday 6th Jan 2023

In our classes this week…..

Nursery

The children have had a lovely time settling back into nursery! I think they have all missed each other a lot!

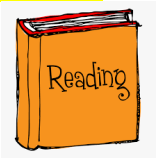
I have introduced the new topic Space to the children through stories and discussions. We have painted lots of big boxes and made our very own Space Rocket to go into our new Space Station! The children have shown lots of interest, and this has created lots of lovely ideas!

Class 1

The children have enjoyed telling us about their time at home over Christmas and it was great to see everyone's happy faces.

New homework has been given out this week and all reading books have been changed ready for you to hear children read at home. It would be great to start the week with comments in our reading records from across the weekend.

Remember our pe day will be a Monday this half term.



Class 2

A huge welcome back and Happy New Year to everyone!

We have enjoyed learning about different New Year Resolutions and setting some for ourselves for 2023. We also kick started our computing unit with learning what to do when someone says mean things online.

Our PE days will remain as Thursday so please can all children wear kit on these days.

Class 3

I hope everyone had a fabulous break over the Christmas period.

The children have settled well on return and have been working hard in preparation to hit the ground running next week.

As a reminder, PE will remain on a Thursday as well as our swimming.

Don't forget those swimming costumes!!!

Notes

We are delighted to share some wonderful news with you... Mrs Ridley is expecting a little bundle of joy in May.

Week commencing 9th Jan

Wednesday – KS1 – Multi-Sports After School Club*
Thursday AM – Class 3 – Swimming
Thursday – Class 3 – SATs After School Revision Club*

*Please wear PE Kit

**All pupils even those in KS2 with permission to walk home must be collected by an adult after all clubs until the clocks change

General

Our first assembly of the new year looked at whether 'should all the energy we use be renewable?' We explored a new invention - a flatpack wind turbine - invented by then 15-year-old Douglas Macartney from Scotland, that has now been developed into a working prototype to help provide power to communities in need.
