

Week Commencing Monday 20<sup>th</sup> April Nursery

<p><b>Communication, language and literacy</b></p> <p>Our book of the week would be 'In Wibblys garden'. You can get the story on YouTube. Can you talk about what Wibbly found in his garden? How he cared for his garden?</p>	
<p><b>Physical Development</b></p> <p>Joe Wick's YouTube channel is a great exercise channel every day. If we were in the school hall, we would be moving like minibeasts. Can you move like a minibeast or bug? Can you slither like a slug? Crawl like a spider?</p> <p><b>Fine Motor skills</b></p> <p>You could practice your pencil control skills by drawing lines, circles and shapes. You could even write your name or letters from your name.</p>	<p><b>Expressive arts and design</b></p> <p>You could produce a bright and colourful butterfly picture and we can put them in our windows when we return to nursery.  How many different colours and patterns could you use?</p>
<p><b>Knowledge and understanding of the world</b></p> <p>As the warm weather has arrived, butterflies have also hatched from their cocoon. See if you can spot any in your garden or on your daily walk. You could discuss the different colours their wings have.</p> <p><b>Maths</b></p> <p>Chose a number this week and match the same number of items to the number. Like our number of the week, we would match 6 items to number 6. You could carry on with your great maths skills each day by counting steps, legs on minibeasts or cars you see going passed you. <a href="http://www.topmarks.co.uk">www.topmarks.co.uk</a> has a great ladybird counting game on.</p>	<p><b>Music</b></p> <p>Some of our favourites on YouTube are: walking in the jungle, sleeping bunnies &amp; sticky kids. Children can have lot's of fun with sticky kids, doing different exercises and movements.</p> <p>This week we had planned on planting some seeds for our garden so if you have any seeds at home you could like to plant then this is a great activity to do. In the past when we have found seeds in our fruit we have planted them in our garden</p> <p>You could share your planting photos on Facebook or Tapestry with us.</p>
