

Week Commencing Monday 11th May 2020

Physical Development

Joe Wick's YouTube channel is a great exercise channel which is on every morning.

Can your whole family join in? How did you feel after doing the exercises?

Fine Motor skills

Use play dough/salt dough, to create a spider! Use your hands to soften the dough and roll into a ball. Use a fork to add texture and patterns to the dough. How many legs do you need? Count together.

This encourages creativity, fine motor and malleable skills, one to one correspondence and counting skills.

Knowledge and understanding of the world

On a damp morning go outside and see if you can find any spiderwebs. Can you find out why spiders make webs? And how they make them?

Music

Can you think of any nursery rhymes about insects/bugs? Can you sing along and do the actions?

Here's one!

Maths

Choose a number (8) and match the same number of items to the number. Write a big number 8 in the middle of a sheet of paper and place everyday items around it. Counting to 8 each time. (use pasta, crayons, lego etc)

Google images of spiders/look in story books about spiders . How many legs do they have? How many eyes do they have?

Incy Wincy Spider

Incy Wincy Spider
Climbed up the water spout.
Down came the rain
And washed poor Incy out.
Out came the sunshine
And dried up all the rain.
And Incy Wincy Spider
Climbed up the spout again.

Expressive arts and design

If you have an old egg box can you make a spider? Be as creative as you like. Take a photograph and share it on tapestry.

Comm Lang and lit. M

Our book of the week is 'Arrrrgh spider' by Lydia Monks. You can watch the story on YouTube.

Look at the front cover and ask questions. What do you think the book is about? What do you think is going to happen?

What did you like about the story? What did you not like? How would you feel with lots of spiders in your house?
