

Week Commencing Monday 4<sup>th</sup> May Nursery

**Communication, language and literacy**

Our book of the week would be 'Mad about minibeasts'. If you don't have the book at home, then you can use YouTube to access the story. If you were a snail, what you would carry in your shell?

**Physical Development**

Joe Wick's YouTube channel a great exercise channel every day.

Sticky kids on YouTube has a wide range of exercises and movements.

**Fine Motor skills**

Use your fine motor skills to rip up paper or cut using scissors to create a collage picture. What different textures could you use to create your artwork?

**Knowledge and understanding of the world**

Did you spot any minibeasts in your garden or on your walk last week?

See if you can find any snails this week. You might find them near plants or crawling on a wall. Can you describe a snail? Hard? Slimy? Slow?

If you planted any seeds last week, how well is your plant looking? Remember to care for your plant with plenty of water and sunshine.

**Maths**

Look at shapes around your home. What shapes can you find? Send your photos on Tapestry of what shapes you have found and see if you can make them all.

**Expressive arts and design**

Design a shell for a snail. You could use different colours or materials.

If you were a snail, how bright and colourful would you like your shell to be?

**Music**

Make your own musical instruments at home.

What items can you find in your house to create a shaker?

Can you make big loud noises or quiet sounds? You could sing your favourite rhymes or songs whilst using your shaker.
