 <p>Keep It Moving! Created by Andrea Thorpe www.embracingtim.com</p> <p>Finish</p> <p>Do eight sit ups.</p> <p>Your laces are untied! Go back to Start.</p> <p>Crab walk AND sing Alphabet Song.</p> <p>You're full of energy! Take another turn.</p> <p>Long Jump! Stand up, take the longest forward jump you can, and then move ahead one extra space!</p> <p>Jump from side to side as you count to 30.</p> <p>Do seven push ups.</p> <p>Count to 30 while you run in place.</p> <p>Oh no! You stopped to watch TV. Go back.</p> <p>Balance on one leg for 15 seconds.</p> <p>Oh no! You're out of breath! Lose a turn.</p> <p>Head, shoulders, knees, toes: nine times.</p> <p>Super Skip Move Ahead</p> <p>You had a great warm up! Move ahead 3.</p> <p>Warm up by doing 10 jumping jacks.</p> <p>Start</p> <p>Rules for play 1) Roll the die. 2) Move the number of spaces on the die. 3) When you land on a space with written directions, follow them. 4) Play until someone reaches the Finish box. Continue play to see who will finish second, third, etc.</p>	<p>Computing Online safety at home. Watch the video and follow the activity instructions. https://www.thinkuknow.co.uk/globalassets/thinkuknow/documents/thinkuknow/parents/pdf/thinkuknow-8-10s-home-activity-sheet-1.pdf</p>
<p>DT</p>	

Can you design a kite out of materials you might have at home?
Use this example to help you!

Materials/tools needed

Large white bin liner, red and blue tissue paper
Dowel
Scissors, glue and masking tape

Notes/extra information

The kite will have a tail with red, white and blue ribbons.

Science

This half term we would have moved onto looking at **light**.

Watch this clip about materials that reflect light

<https://www.bbc.co.uk/bitesize/clips/ztcg9j6>

Reflective surfaces and materials can be very useful. Reflective material on clothing can help people to be seen and 'cat's eyes' on the roads can help drivers to see the road. **Can you think of any other examples?**

Testing Reflective Materials

In order to test the materials, you will need to make a reflection tester.

Attach a piece of white card to a torch:

1. Cut a hole in the centre of the card and push the torch through so that the card fits snugly around the torch without you having to hold it.
2. Shine the torch at the material you are testing.
3. If the material reflects light well, you will see the reflected light shine through the white card and light it up.

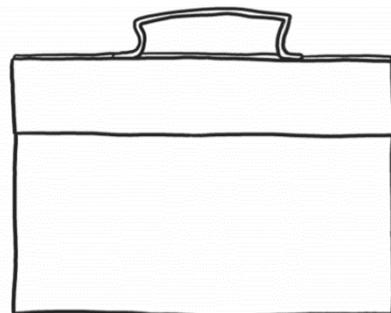

Can you create a reflection tester and see if you can find some reflective materials or objects in your house?

(For example; CDs, tin foil, bubble wrap, fabrics, cardboard, paper)

Design a book bag with a reflective strip/ strips.

What material will you use for you reflective strips and why?

Remember

- The history learning project in on the website
- There is a new geography project for this half term
- You have key words to practise reading and spelling – you can make your own doodle spellings
- You have a list of online learning sites you can use
- Children were given their own login to use Education City
- You have Times Tables Rock Stars logins and there are certificates up for grabs!

READING AT HOME

This website is offering free e-books so that you can enjoy reading a range of fiction and non-fiction texts at home.

<https://www.oxfordowl.co.uk/for-home/find-a-book/library-page/>

Please send us anything you have been doing at home- it is lovely to see what you've been getting up to!
