## Rule of Law

During the Covid-19 outbreak, many new laws have been introduced to help keep us all as safe as possible. It is important to follow any new rules to protect ourselves and others around us.

## Assembly Resource

Read through the resource below, which provides information about Chester Zoo, including the running costs. How do we feel about this issue?

There are 35,000 animals at Chester Zoo!

👏 YOU DID IT! 🙌

A week ago we were in despair, not knowing when we would reopen, or if we could even survive much longer...

**BUT YOUR VOICES HAVE BEEN HEARD!** 🙌

We have JUST received the news that we'll be able to open safely from 15 June.

Your support has been incredible. Every kind donation, every word of support. It really is making a HUGE difference.

The fight isn't over for us just yet. But, for now, we want to celebrate this huge moment of relief with you.

There's no denying that we have suffered severe financial damage over the past three months and the road to recovery will be long and uncertain. But, your incredibly kind donations, animal adoptions and memberships are giving us a vital lifeline.

Over the next few days we'll be letting you know when and how you'll be able to book a ticket to visit. Please bear with us while we do this.

From the bottom of our hearts, thank you. You are **SAVING OUR ZOO** ❤️

There are many ways the zoo has suggested people can help, found on their website, including:

- Texting to donate;
- Adopting an animal;
- Buying a gift ticket for future visits;
- Suggesting fundraising ideas for people to complete at home to raise money.

CHESTER ZOO

Chester Zoo has been bringing the zoo into people's homes by offering a virtual zoo experience via streaming live footage of different animals!

Not being able to open, despite being a huge outdoor site with all the necessary safety measures in place, is having a devastating impact on the future survival of this much-loved charity zoo.

Jamie Christon*

97% of the zoo's income comes from the visitors. It costs nearly £1.6 million a month to look after all of the animals and plants.

## Resource 2

Look at the resource below, which shares why some people think we have zoos.

Zoos have programmes where they try to reintroduce wild animals into their natural habitat. This is so important to ensure animals do not become extinct. Sadly, reintroduction can't always happen if the reason the animal is endangered in the first place isn't fixed.

Conservation  
Scientist

Zoos are so important as whilst wild animals are in captivity, we can learn much more about them so we can manage and conserve them in the wild.

Zoo Ranger

I love visiting zoos as I feel like I can connect with the natural world and learn more about animals and conservation.

Zoo Visitor

A zoo visitor

I enjoy visiting the zoo and am happy that my entrance fee will be used to look after the animals and for research.

Zoo Visitor

Zoos are equipped to respond to emergencies, where a certain species of animal may need immediate help to save it.
