

Week Commencing Monday 8<sup>th</sup> June Nursery

**Communication, language and literacy**

Our book of the week is 'Commotion in the ocean'. You can get this story on YouTube.  
 Can you tell me what lives in the sea?  
 In the story what sea animals did you see? Can you describe them? Are they scary?  
 Did you enjoy the story? What did you enjoy?

**Physical Development**

Joe Wick's YouTube channel is a great exercise channel which is on every morning.  
 If you go onto YouTube or ask Alexa to play under the sea songs. Can you move like a fish/shark/crab/starfish etc? How do they move?

**Expressive arts and design**

Save your lolly stick!!  
 Draw around your hand and make a fish puppet. Make it as colourful as you can. You can share your puppets on tapestry. We'd love to see them.

**Fine Motor skills**

Can you make a play dough fish? Roll the play dough in your hands into a ball. Then make a tail and add some eyes. You could even add scales using your finger nail.

Imagine you found a magic shell under the sea. You can have one wish. Draw a picture to show us what your wish would be.

**Maths**

Chose a number (10)) and match the same number of items to the number. Write a big number 10 in the middle of a sheet of paper and place everyday items around it. Counting to 10 each time (use pasta, crayons, lego etc)

**Knowledge and understanding of the World**

Talk to an adult, look in a book or even search on the internet [to find out about an animal that lives under the sea.](#) What did you find out?
