

In our classes this week.....

Nursery

This week in Nursery we have read the story Pirates Love Underpants. We have really enjoyed our pirate ship P.E sessions where we hopped, skipped and jumped to get to the secret island.

In this week's Jigsaw lesson, we talked about how flowers start off as seeds and transform into flowers. We really enjoyed planting our own wildflowers in the Nursery garden.

Class 1

On Thursday we had an amazing time singing songs about journeys at the Sage Gateshead with other children from different schools across the North East.

We enjoyed our school fitness day on Friday with LK Health and Well-being.

On RSE day we worked together to make a fantastic paper chain showing what makes us sparkle! 💖

Class 2

In Class 2 this week, we celebrated RSE day by thinking about what makes us sparkle and creating flags to represent how we are unique.

On Wednesday we enjoyed our final archery session of the year and have really improved since our first one!

We have been practising our songs ready for the Big Sing next week! Don't forget that these are on Teams if you want to practise at home.

Class 3

This week we have been busily preparing for our upcoming Big Sing next Tuesday. The children are making great progress but please remind them that all the songs are available on their Class Notebooks so they can practise at home too.

We've had another active week this week with the children enjoying the Year 6 Leaver's sports event at Maiden Castle on Tuesday; Archery on Wednesday; swimming on Thursday and our fitness event on Friday.

In science, we are continuing to learn about electricity and the children thoroughly enjoyed constructing some electric circuits this week.

Reminder:

Next week the children will be spending some time in their new classes in preparation for September.

News:

We have been awarded Gold!

General:

This week our assembly has focussed on the **British Value of Individual Liberty** and **Article 29: Aims of education** as we have discussed a new study, from the University of Montpellier, France, that has found that fish species voted less attractive are more likely to be threatened with extinction than their more 'beautiful' counterparts.

Individual Liberty

Research has shown that some species of fish are more likely to be threatened with extinction as they lack public support. It is important to remember our actions have consequences and we are responsible for them.

Our education should help us to protect the environment. Some animals may face extinction unless we take action.

Dates for your diary:

- Tuesday 5th July – Big Sing (KS2)
 - Friday 8th July New starter coffee morning 9:15am
 - Wednesday 13th July – Nursery graduation, Year 6 Leavers and Music Concert 9:15 am (all welcome)
