

## Science Vision Statement

*At West Pelton Primary School, our vision is to stimulate the minds of children, encouraging curiosity, through providing a rich and varied science curriculum. This will enable pupils to explore and discover the world around them, allowing them to understand the relevance and importance of science in their everyday lives. Teachers will provide lessons that build upon prior knowledge, deepen understanding and enrich scientific vocabulary. All pupils will be given the opportunities to explore, discuss and question; becoming independent, confident scientists.*
